Our group is called SMArties and we first met in 2016.

This will be a great opportunity for people with SMA and their families to connect and get to know other people living with SMA. Dr Michelle Farrar will provide an update on Spinraza and other treatments for SMA. Biogen will also have a representative there to answer any of your questions.

New families are very welcome. We hope you can join us!

Please RSVP Carolyn by Monday 27 May with number of adults and children attending, along with any specific dietary requirements to: carolyn.cm@mdnsw.org.au or call 0408 472 510
